# ELECTRIC LADIES 2017

Electric Ladies Fall/Winter 2017 is a Fur-Eveningwear collection inspired by famous female fashion icons ranging from the year 1958 to present day. Icons including original Barbie, Madonna, Marilyn Monroe, Victoria Beckham and Kim Kardashian document the evolution of women's beauty.

Adrian Arneri has gone beyond the traditional concepts of eveningwear and fur fashion through the use of special fur sewing techniques and non-traditional uses of fur in particular garments. Fur has been manipulated to look and act like feathers lightening the weight of the garments which allows for lots of movement amping up the collection's runway appeal.

Garments feature Silver Fox fur, Coyote and Raccoon fur which have all been dyed in electric colours such as blue, purple, red, yellow, pink and orange. These vibrant furs are paired with metallic and black and white patent leathers to create drama.
